

Hospitality AV Solutions

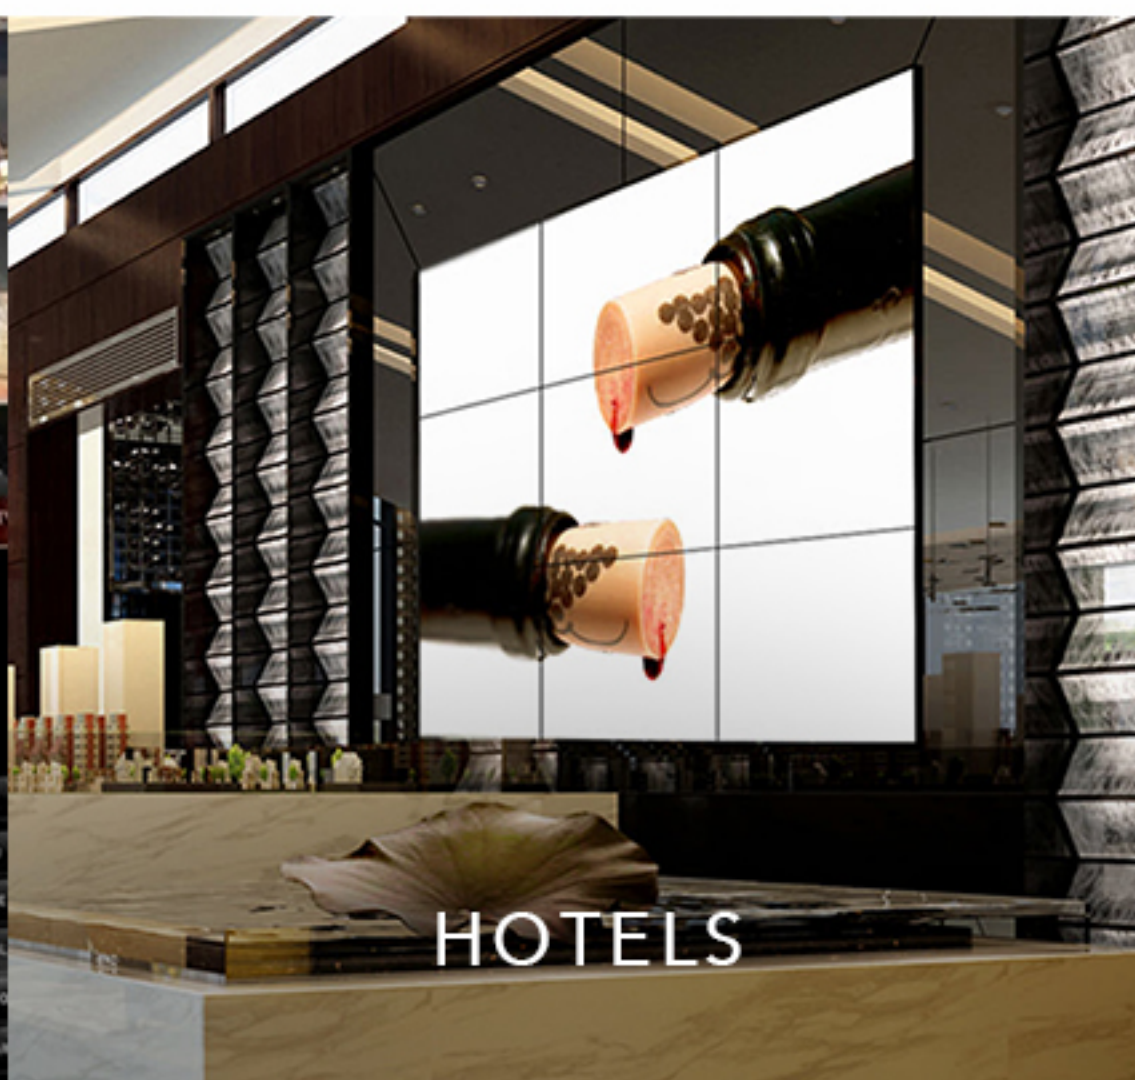

Crunchy Tech has been in the high-end restaurant, hotel, and retail AV design and installation world for more than a decade. We utilize state-of-the-art sound, video walls, PA systems, and automation that any employee can operate so that you can focus on your guests needs.

Let us help dazzle your guests with streamlined audiovisual technology that's backed up by our world class support.

RESTAURANTS

For the restaurant industry it is all about the guests and the guest experience. Crunchy Tech can design, install, and support a simple solution or a complete technology overhaul to take our restaurant client's guest experience to the next level.

HOTELS

Hotels have many areas that can generate revenue outside of actual room occupancy. Bring in larger meetings, banquets, and bar guests supplement hotel revenue with a top-of-the-line distributed AV system from Crunchy Tech.

RETAIL

There are many distributed AV solutions for the retail space. From digital signage, to content delivery and management Crunchy Tech can design, install, and support simple or complex systems catered to any client's needs.

SUPPORT

“Crunchy has done an amazing job on our A/V install. The Ace is a very visual brand, and has an authentic soundtrack of almost 80 years of rock 'n roll to boot, so we had to make sure we had the right company onboard to help bring it to life. We've got 31 hi-vis LED screens, a projector and a giant drop-down screen. The sound is perfectly balanced throughout our many zones, and the entire system is super simple to use.”

Steve Glum—Chief Marketing Officer of Ace Cafe North America.
