

Huddle Room Solutions

Collaboration is key in all organizations, and huddle rooms need to be up to date. Smaller conference meeting spaces, or “huddle rooms”, can often have simple needs, but can also need a more robust solution.

With a Crunchy Tech huddle room installed in your office, the only limitation will be your imagination.

CONFERENCING

No more huddling over conference phones that are oddly placed when you have a Crunchy Tech huddle room. We are experts in making sure everyone is heard regardless of position in the room.

Do you need a camera that tracks the speaker across the room and auto-pans to the person speaking? Crunchy Tech can design, install, and support any video solution needed for huddle room spaces.

Today there are many different conferencing solutions and having a high-end huddle room from Crunchy Tech makes sure everything will work all the time. Have employees bring their own device, use any conference solution, and get collaboration going.
