PRECONSTRUCTION AV SOLUTIONS

It is important to plan and budget for AV equipment, especially the appropriate connectivity and power, in the design stage of any building.

Even if the client has no plans for AV systems it is far less expensive to install low-voltage, cabling, and power outlets during construction than to add them later.

Crunchy Tech creates expert designs in all construction phases that help understand the total cost of AV technology up front. This helps to prevent very costly surprises and compromises later.

CRUNCHY TECH

Crunchy Tech is a pioneering technology firm based in Orlando, Florida. Founded in 2008, Crunchy specializes in end-to-end commercial AV integration, meeting spaces, digital signage, interactive experiences, and world class support.

Our services include all-in-one solutions to your technology needs, including system creation, development, management, and 24/7 technical support. Our goal is to give your organization a perfectly tailored system that is customized to fit your needs.

OUR PROCESS
IF YOU CAN DREAM IT, WE CAN BUILD IT.

BRAINSTORM PLAN DESIGN INTEGRATE SUPPORT

WHY USE CRUNCHY TECH?

Crunchy Tech is a premier audiovisual solutions provider. We design, install, program, commission, and support top-of-the-line systems that work with the complexities of business needs.

With so many premier technology partners to choose from, our AV programs promote ease-of-use, long-term cost effectiveness, and upgradability.

Crunchy Tech also provides on-going support for our AV systems through warranty and maintenance programs to ensure the system's usability and the client's satisfaction, providing huge added value to the end client.

CRUNCHY TECH

UNDERSTAND CLIENT AV REQUIREMENTS

Add value to your preconstruction project by incorporating AV capabilities from the beginning. Robust AV solutions are becoming a necessity for most modern companies today.

Crunchy Tech is an expert AV integrator and understands the needs of modern office buildings.

We can consult with contractors and architects before and during construction to ensure AV is kept in mind that exceeds client expectations.

CRUNCHY TECH

PLAN AND BUDGET FOR AV EQUIPMENT

Crunchy Tech can develop preconstruction schematics that enable contractors and architects to design buildings that keep AV in mind, saving their clients money when it comes time to install these systems.

Even if you don't plan on adding technology to conference rooms after construction it is important that everything is pre-wired to make everything easier for the end client.
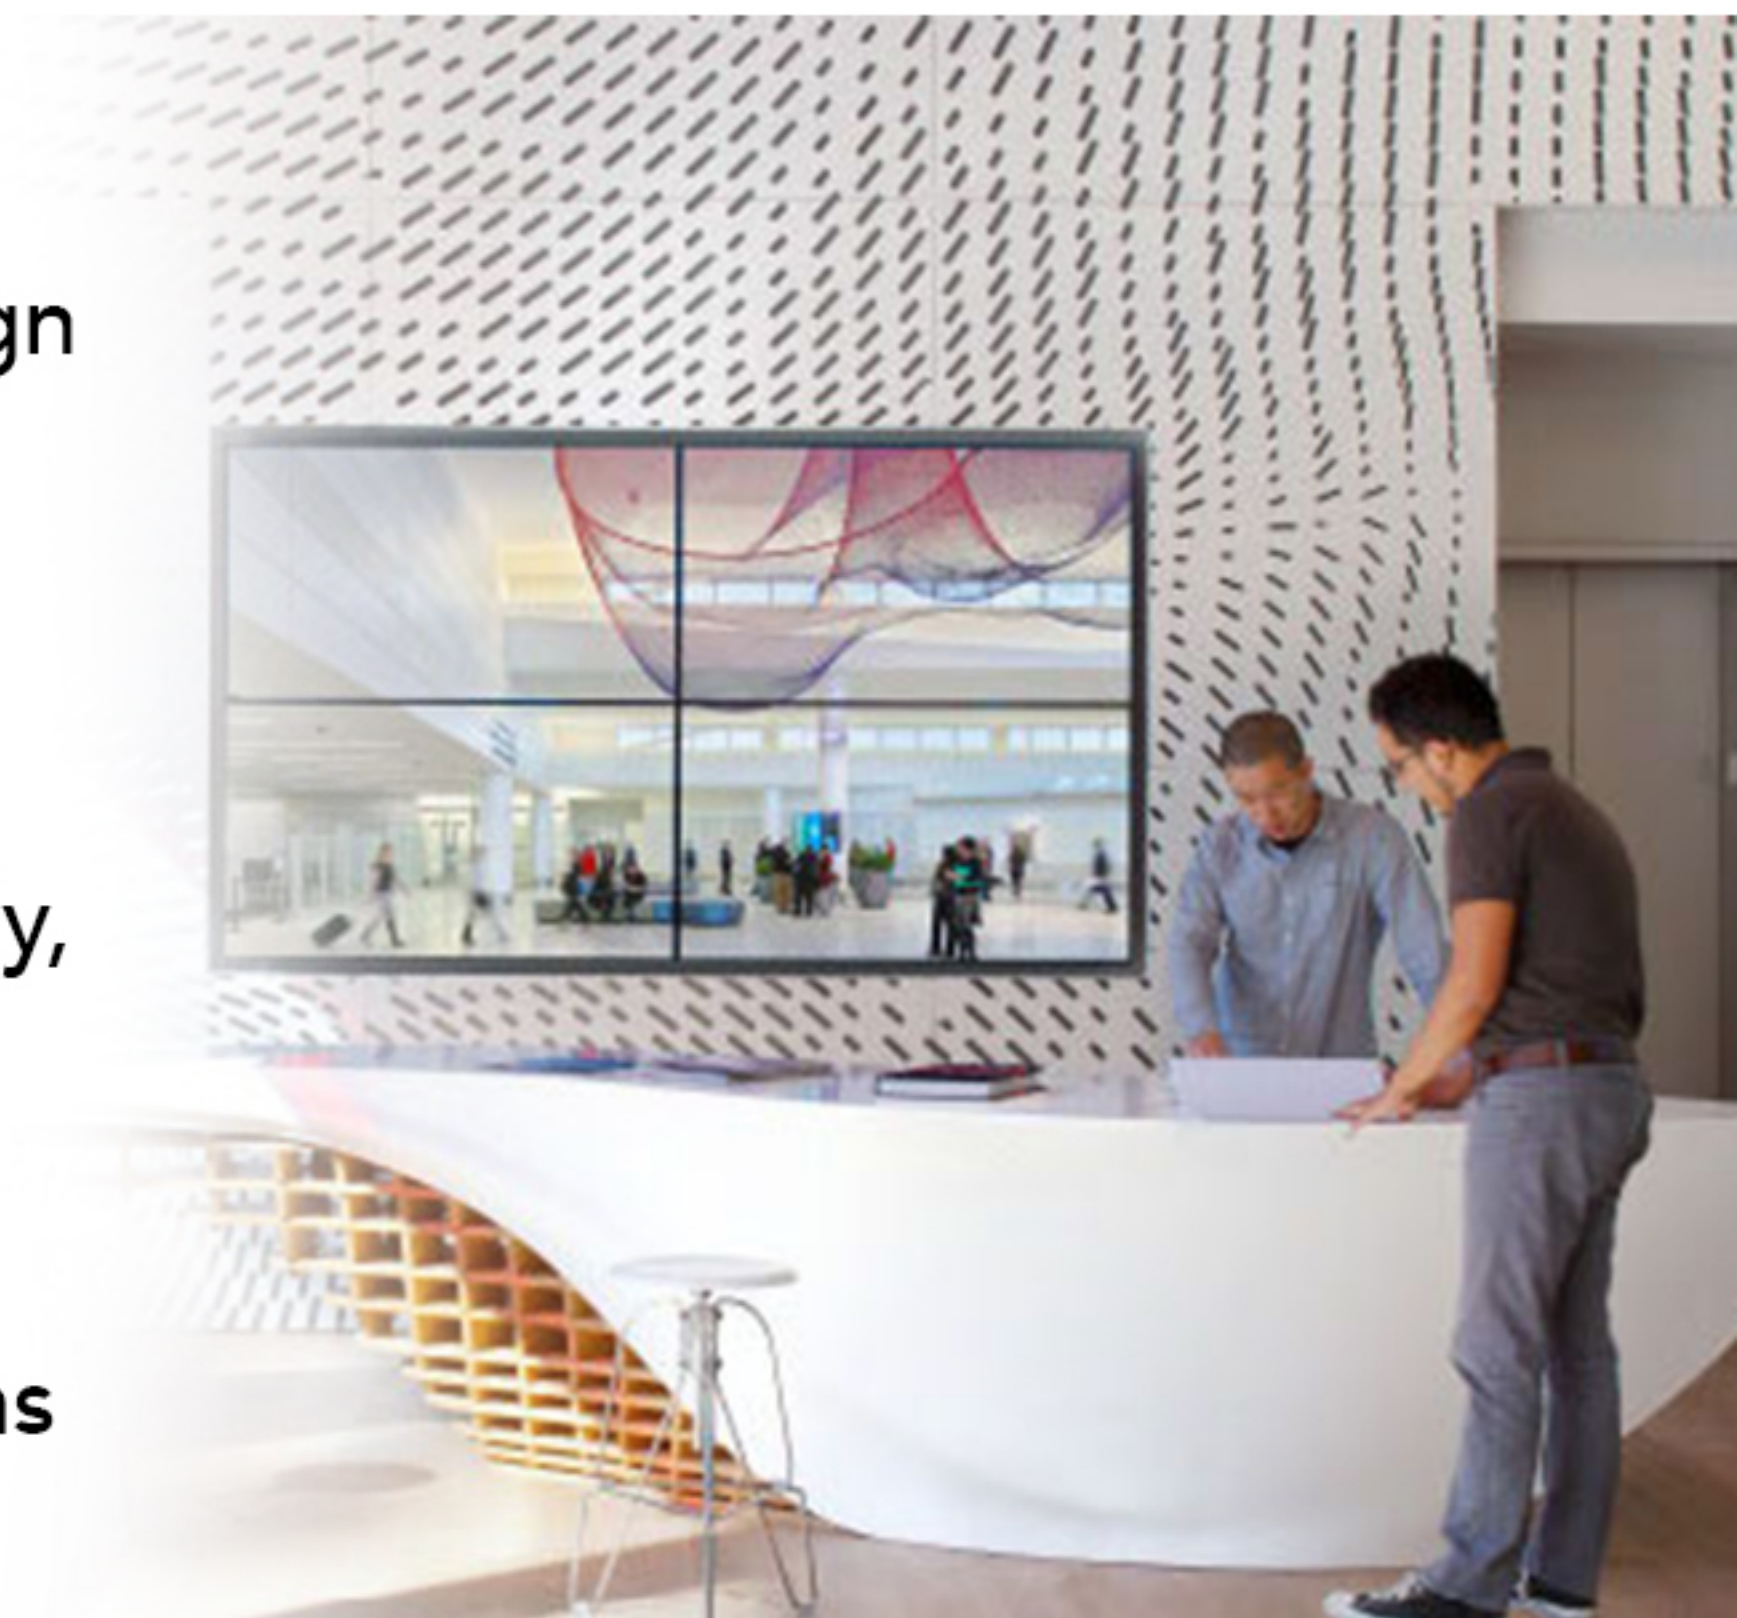

STAND OUT WITH AV INCORPORATED INTO DESIGNS

Leveraging Crunchy Tech's expertise into office and building design will really help you stand out. Clients will see and appreciate the forward-thinking and scalability of designs that keep AV in mind.

There will always be a need for AV equipment in any building and making sure cables are hidden, acoustic panels are placed properly, and pre-wired wall plates are all ready to go at the end of construction is very important.

Set yourself apart from the competition by having your AV systems planned out by an expert AV designer.

CRUNCHY TECH

PARTNER WITH CRUNCHY TECH ON YOUR NEXT BUILDING

Crunchy Tech provides top-of-the-line AV designs for architects, builders, and contractors. Crunchy Tech can design, integrate, install, and support AV systems when construction is complete.

Our expert design team will help you work through every step of the process and show our expertise in other jobs we have done.

Let us help you design your spaces with the latest technology and launch your clients to the forefront of AV solutions and employee productivity.
