

# Restaurant AV Solutions

## Stunning AV For Your Guests

For the restaurant industry it is all about the guests and the guest experience.

Crunchy Tech has been in the restaurant distributed AV world for over 10 years.

We can design install, and support a simple solution or a complete technology overhaul to take our restaurant client's guest experience to the next level.

Crunchy Tech is a pioneering technology firm based in Orlando, Florida. Founded in 2008, Crunchy specializes in end-to-end commercial AV integration, meeting spaces, digital signage, interactive experiences, and world class support.

Our services include all-in-one solutions to your technology needs, including system creation, development, management, and 24/7 technical support. Our goal is to give your organization a perfectly tailored system that is customized to fit your needs.

# WHY USE CRUNCHY TECH?

Crunchy Tech is a premier audiovisual solutions provider. We design, install, program, commission, and support top-of-the-line systems that work with the complexities of restaurant needs.

With so many premier technology partners our AV systems promote ease-of-use, long-term cost effectiveness and upgradability.

Crunchy Tech also provides on-going support for our AV systems through warranty and maintenance programs to ensure the system's usability and the client's satisfaction.

## PRIVATE DINING ROOMS

Restaurant private dining spaces can be a real revenue generator, and with a proper distributed AV, system owners can attract higher end clientele for their private dining rooms.

These systems can be designed to have single and combined rooms to utilize spaces to their full potential.

Having a well-tuned and ready-to-go room with bring-your-own-device connectivity, microphones, and cameras will really take restaurant private dining spaces to the next level.

# MULTIPLE ZONE AUDIO

Restaurants come in all shapes and sizes and have multiple floors in some cases.

With multiple zone audio our clients can make custom audio zones and generate a unique experience per room.

It is especially important that restaurant owners' partner with a savvy audio-visual integrator when trying to do multiple zone audio for a restaurant.

There are many best practices that need to be followed to ensure that gain levels and EQ are properly set up.

It is also important that all microphone inputs and outputs are set to proper levels.

Crunchy Tech specializes in multiple zone audio and can design, install, and support top-of-the-line solutions for any restaurant regardless of size.

## PA & ANNOUNCEMENT SYSTEMS

Whether it's private areas such as private dining rooms and bathrooms or public areas such as a waiting area or bar, Crunchy Tech public announcement systems will provide the perfect audio solution for your restaurant space.

Stop maintaining a delicate and hard-to-hear PA system and enhance your guest experience with an easy-to-use announcement system that can be operated by any employee and is backed by our world class support.

## VIDEO WALLS & DIGITAL SIGNAGE

Digital signage and visuals are a top tool to enhance the guest experience. Whether it's a sports bar or fine dining hotel restaurant, visuals matter.

At Crunchy Tech we can design, install, and support the perfect arrangement of displays, video walls, menu boards, and any digital signage need.

## AUTOMATION & EASE OF USE

A complicated distributed AV system in a restaurant space needs to have simple controls. It wastes a lot of time having few employees that can operate restaurant audio and video control systems.

Restaurant distributed AV systems can be set up to enable control on a tablet enabling any employee who can use a tablet to operate the easy-to-use controls.

The days of fishing for 20 different remotes are over with automation and ease-of-use built into your Crunchy Tech distributed AV system.

# BRIGHTSIGN CONTENT DELIVERY

Many venues need a dynamic content delivery system and flexibility with what content you can display and where can really enhance guest experience.

BrightSign is a great solution that provides a content delivery system that is accessed from a single easy-to-use central cloud location.

Each TV, video wall, and menus can be easily updated to keep your clients informed and updated. BrightSign is a one-stop-solution for any content delivery need the client may have.

Crunchy Tech can help inform you on all things BrightSign and assist in the initial deployment of your BrightSign network. We can also train your staff on how to efficiently operate in the Bright sign space as well!
